

2022 BAPTIST HEALTH COMMUNITY HEALTH NEEDS ASSESSMENT: DATA BOOK

ACHI
September 30, 2022

PREPARED BY:

Introduction

Baptist Health engaged the Arkansas Center for Health Improvement (ACHI) to conduct the quantitative data collection and analysis for the 2022 Community Health Needs Assessment (CHNA). This data book is a compilation of all health indicator and demographic measurements for each of the 11 Baptist Health hospital communities in Arkansas, which cover 15 Arkansas counties and two Oklahoma counties. If data were not available or were suppressed, "Data Not Available" is displayed.

Data and Rankings

CHNA MEASURES

To assess the health-related needs of each hospital's community, ACHI gathered, synthesized, and analyzed data for 98 health indicators and demographic measurements from several data resources. There are 12 sections: Demographics, Health Outcomes, Cause of Death, Chronic Conditions, Health Behaviors, Prevention, Access, Social and Economic Factors, Environment, Diagnoses Incidence Within Hospital Community at Discharge, Mental Health and Substance Use, and COVID-19.

A compilation of all measurements is shown below. For more detailed information on methods and resources used, please reference the Methods document and Appendix 1.

COUNTY RANKINGS

To assist Baptist Health in identifying priority needs for the hospital communities, ACHI ranked counties with available data into tertiles for each health indicator. The color-coded rankings are as follows:

Red represents all counties rated in the top third

Orange represents all counties rated in the middle third

Yellow represents all counties rated in the bottom third

Demographics: Age

	Total Population	Ages 0-4	Ages 5-17	Ages 18-24	Ages 25-34	Ages 35-44	Ages 45-54	Ages 55-64	Ages 65+
	<i>Number</i>	<i>Percent</i>							
Arkansas County	17,914.0	6.4	16.5	7.8	11.6	11.5	12.6	14.7	19.0
